Date of birth: 03-12-2003

surbhi.312verma@gmail.com

I'm eager to apply my front-end development skills to create intuitive, responsive, and scalable user interfaces for the Front-End Developer role. I'm excited to deepen my understanding of user needs and industry challenges, and I'm ready to contribute as a full-time Front-End Developer, building exceptional web experiences with modern technologies.

Education

Chaudhary Charan Singh University, Meerut | Bachelor of Computer Applications

10.2021 - 06.2024

Relevant coursework: Java Programming and Dynamic Web Page Design, OOP using C++, Computer Graphics and Multimedia Applications, E-Commerce, and Computer Network Security. | **First Division** (65%)

Bilingual (Hindi & English) • Effective Communication • Active Listening • SEO/SEM Marketing • Canva • Adobe Express • Figma • Notion • Vercel • C++ • UI/UX • Python • JavaScript • Flask • Git • GitHub • pygame • Bootstrap • Tailwind • React • HTML & CSS

Projects

1. Zentry— React.jsx, Tailwind CSS, Vercel

Built a fully responsive and modern website enhancing my understanding of front-end development principles. Implemented reusable React components and styled them using Tailwind CSS for a clean, consistent UI. Deployed the project on Vercel, gaining hands-on experience in deployment and version control.. 2. Hub.— React.js, Tailwind CSS, Framer Motion, Vercel

Developed a sleek and interactive web application showcasing advanced front-end development skills. Built reusable and dynamic React components with smooth drag-and-drop functionality using Framer Motion. Styled the UI with Tailwind CSS for consistency and responsiveness. Deployed the project on Vercel, gaining experience in deployment and maintaining a polished, production-ready app. [Link Here](#)

3. Ochi: — React.js, Tailwind CSS, Framer Motion, Vercel

Built a modern and visually striking website inspired by the Ochi design. Crafted dynamic and reusable React components with seamless animations using Framer Motion. Styled the interface with Tailwind CSS for a responsive and cohesive look. Deployed on Vercel, gaining hands-on experience in deployment and delivering a polished, production-ready application.
